To: Quality Docks

Letter of Thanks

From The Walter Family

As you know we were looking to place a floating dock on our sea wall along Sims Park. Each property owner along the Park has Dock rights across the street. We got three estimates and found Quality Docks to be the quickest to respond, with courteous, easy to understand quotes along with providing the best value.

I was impressed your quick response and the knowledge of your salesman and installers. What was quoted was delivered within 48 hours of our permit approval. I could not be more satisfied with your craftsmanship and attention to details and speedy service. Your service left us with a warm fuzzy that we made the right decision.

John Keats/Wendy Walter
